Ninth Round-Smith showed he could take lots of punishment, and tried to tire out his opponent by clinching, and butting his head into Green's face. Green raised a yell by getting in a hard right. Both men got winded, and retired to their corners in a grougy condition.

Tenth Round-Smith got his right clean in on Green's mouth. Smith had much the best of the fight when the gong sounded.

Eleventh Round-The Denverite got in several hard licks when Green had his head tangled in the ropes. Smith followed up his advantage, but Green landed hard on the body, and followed it up with a stiff

Twelfth Round-Smith rushed Green to the ropes and swung his fiste into the latter's face, winding up by clinching and being warned against fouling. All that Green could do was to get in a few upper cuts and left-handers. The round ended in

Smith's favor. Thirteenth Round-Green came up game and got in two hard body blows, Smith landing once in the face. Green railted and got in beavy face hits.

Fourteenth Round-Smith rushed Green against the ropes and landed heavily. Green was forced on his knees, but he escaped a knockout by smart dodging. Fifteenth Kound-The Denverite forced the fighting and got Green against the ropes, but he was sorry for it, as he received two punishing face bits and later some heavy body blows. Smith at last got in a terrible right-hand swinging blow on Green's jaw, knocking him to the floor. The boy rose again and again just in time to save himself from being counted, only to be knocked down on his back, face or knees with Smith's merciless right band. There was a riot just outside the arena caused by a gang of roughs from South Chicago and Whiting trying to break in to see the fight. Some Pinkerton detectives ran out of the door and tried to disperse the mob with their clubs, but they were met with a shower of rocks and detective Forsythe was hit on the head and knocked down. RIOTOUS LUMBER SHOVERS.

Policemen and Nonunionists Assaulted and Many of the Latter Injured.

ASHLAND, Wis., July 31 .- A crisis was reached in the lumber shovers' strike this morning. The strikers openly defied the officers of the city and county, closing with them in a hand to hand battle, in which blood was shed freely. The Shores Lumber Company sent word to Mayor O'Keefe that it would commence loading its boats with nonunion laborers this afternoon and asked for protection. The Mayor sent police to the docks, where they were joined by Sheriff O'Brien and deputies. They took a stand in the tramway of the dock. Work had hardly commenced when a great mob of strikers swarmed down over the docks and tramways. The foremost of them were foreibly handcuiled by the officers, and others were arrested, who were afterwards rescued from the police by their fellows. A desperate hand-to-hand contest followed in which revolvers were flourished and several shots fired. The officers were nearly all bruised with stones and clubs. The advance on the tramway was finally checked, but the strikers then swung down underneath and made for the boats, reaching them shead of the officers. The nonunion men who were loading the boats were struck down with clubs and terribly beaten as they fled, panie stricken, followed by the mob. They were met by the officers, who protected them from further violence. Forty of the ringleaders among the strikers have been arrested.

Return of Minister Hicks. SAN FRANCISCO, July 31.—Ex-Minister to Pera John Hicks, accompanied by his wife. arrived here yesterday. Referring to the so-called Moliendo outrage the Minister said: "In one sense it was an outrage and in snother it was an accident. A mob attacked a Masonic lodge room, gutted the building and burned the furniture in the street. The United States consulate was in an adjoining building and the consul was shot in the leg and his office demolished. Of course this constituted a grave international affront, but the Peruvian goverument acted in a most honorable and courteons manner. Prompt apology was voinntarily made, the subprefect was dismissed and I had the pleasure of turning over the sum of \$2,000 to the consul in full compensation for all damages."

Special to the Indianapolis Journal. TOPEKA, Kan., July 31 .- Returns received at the headquarters of the several woman's political organizations in this city show that the woman vote at the school election in the country districts in Kansas, last Thursday, shows an increase of about 100 percent. The woman auffragists claim that this showing is a great victory for them, proving that the large majority of the women of the State are desirous of a full elective franchise.

WAS COWARDLY MURDERED

Mutilated Body of O. Kent Browne Found in the Bushes Near Winchester.

He Was Gen. Thomas M. Browne's Bodyguard During the War-Samuel Price Suspected and in Jail-Other Indiana News.

Special to the Indianapolis Journal. WINCHESTER, Ind., July 31 .- O. Kent Browne, colored, the army body guard and servant of the late Gen. Thomas M. Browne, was murdered just south of this city last evening. About 8 o'clock Mr. Browne was seen driving south on the Lynn pike in his buggy. At 10 o'clock his horse and buggy were found standing at his stable, and several large stones lying the buggy. The horse was put in the stable by Auditor Canfield, thinking some trick had been perpetrated on Mr. Browne. This morning when Mr. Browne did not appear Sheriff Fletcher instituted a search for him and found him about one mile south of town, lying behind a rose bush, thirty feet from the pike. The struggle had evidently taken place the road, Mr. Brown being then dragged where he was found. The body was taken to Digg's undertaking rooms, where an inquest was held. He was several times with his right, without much | shot in the head, breast and hips. Besides there is evidence of his having been stoned and beaten with tence rails and clubs. The excitement is great, as this the fourth murder of this kind in this county within three years. Still greater was the surprise when Samuel Price, a pump maker, of this city, was arrested and lodged in jail on suspicion towards evening. It seems that Browne and Price have each been giving their attention to the same woman, and last Friday night had a quarrel over her, in which some harsh things were dence against Price is meagre, and, of course, purely circumstantial, and, as yet, bardly goes to explain this mysterious

Soldiers' Monument at Noblesville.

Specia to the ladianapolis Journal. Noblesville, Ind., July 31 .- In the Journal of yesterday it was said that "There are tour monuments in Indiana to commemorate the part Indiana took in the war for the Union," and the places mentioned as their location are Princeton, Winchester, Delphi and Michigan City. The Hamilton county soldiers' monument is entirely overlooked. This monument is a marbin shait twenty-eight and one-half feet nigh, weighs 35,000 pounds and cost \$5,000. The monument was dedicated July 4, 1868, the late Governor Baker being the orator of the day. The monument was the first in the State erected wholly at public expense and dedicated to the memory of the soldiers of the late war. The shaft is octagonal in design and on the sides are carved the names of all the soldiers who went from this county, grouped according to their organization. The American flag is draped from the top and in graceful folds around the side of the shaft, which is surmounted by an American eagle with outstretched wings. The monument is situated at the south side of Crownland Cemetery, just northeast from this city.

Indiana Crop Bulletin, An advance copy of last week's report of the Indiana weather service, compiled in co operation with the agricultural experiment

station at Purdue University, says: The temperature and sunshine during the past week were excessive, and although local rains prevailed over the State on the 26th inst., temporarily benefiting the growing corn and potatoes, crops were reported at the end of the week as suffering from drouth, except in portions of southern Indiana. The dry weather has affected the crops most severely in the northern portion of the State, and reports from some of the northern counties indicate that the oats crop will be almost an entire failure. Wheat threshing is about completed, and plowing for fall wheat has commenced in some sections of the State. Late' reports say that the quality of the grain is very good, but the yield is not so large as was expected. Without exception pastures are reported as very short and dry, and in some instances farmers have been comeelled to feed their stock as in winter. Late potatoes, already suffering from drouth, have been injured by bugs in all sections of the State. Reports again indicate. that the melon crop will be unusually large and fine. Pears are in better condition than other fruits, and grapes have apparently suffered but little injury from the dry weather.

H. A. HUSTON, Director. Trouble Caused by a Turkey Hen.

Special to the Indianapolis Journal. FARMLAND, Ind., July 31.—David Bailey, a prominent farmer, residing four miles north of town, was arrested, this morning, for committing an assault upon Mrs. Dehis Brinkley, the wife of another prominent farmer. The evidence produced showed that farmer Brinkley's old turkey | would be accepted. The men are not inhen and her numerous brood had wandered over into neighbor Bailey's orchard to roost. About duck, Mrs. Brinkley and her small son went into the orchard to drive the turkeys home. They found farmer Bailey and wife in the orchard ready to meet them. After a vigorous war of words farmer Bailey became so incensed that he grabbed a club and commenced to knock the turkeys out of the trees. Mrs. Brinkley rushed to the tree to save her turkers when farmer Baily struck her also with the club, badly lacerating her head. Bailey was arrested and brought to town, and, after an all-day trial, was found guilty, and compelled to pay about \$50 for his even-ing's sport. The trial was held in the operahouse, in the presence of the largest crowd ever known at a trial in this place.

Cooprider Still at Large.

Special to the Indianapolis Journal. CLAY CITY, Ind., July 31.-It has been nearly a week since Cooprider killed Kress, and yet no effort has been made to arrest him, although it is known that he is in the woods, just west of town. The opinion is freely expressed that had Kress killed Cooprider there would have been do delay in making the arrest. But Cooprider has plenty of friends and money to back him, while Kress was sadly lacking in both. The county sheriff was in town Thursday night and stated that he was not after Cooprider, and that it would be useless for him to try to find him in "those woods," but that if he "should happen to run across him he would arrest him.

Sheriff Ringo and posse have been in town all day waiting for Cooprider to come to town and give himself up. No attempt has been made to arrest him. Cooprider's father states to-day that his son is on the farm. It is said Cooprider is to come in tonight and surrender.

Hobson Will Not see the Fair Yet Awhile Special to the Indianapolis Journal.

Hobson, for the past few months employed by the Salem and Bedford Stone Company, in the capacity of master mechanic, while on his way to the world's fair to-day, was detained at Lafayette, on a warrant sworn ont by Thomas Box, of this city, alleging he had obtained money under false pretense. Since it became known here that this action was taken, a number of other charges of a similar nature have been made. It seems that Hobson had worked his scheme to perfection. He claimed to own property in West Virginia, and thus obtained vast credit. He is a young man, between twenty-five and thirty years old, and has been making himself quite popular. George Holmes, sheriff of Lawrence county, will leave for Lafayette to-night

SHELBYVILLE, Ind., July 31. - A few months ago such a thing as a vacant house in Shelby ville was not known. The rent agencies of the city had applications for houses on hand all the time. Considerable effort has been made all day to find the parties who so posted the town, but they have not been discovered.

Special to the Indianapolis Journal. MUNCIE, Ind., July 31 .- The trouble at the Midland steel works has been amicably settled by a concession on both sides. PEACE IN THE HOUSE. Mesers. Fisher and Logan Express Regret

for Their Part in the Rumpus. LONDON, July 31 .- Prime Minister Gladstone, replying to a question in the House of Commons to-night, asked by John Lloyd Wharton, which question was prompted by the hand-to-hand conflict that occurred in the House last Thursday night, said that doubtless it would be for the general convenience of the House and in the interest of good order if an arrangement should be arrived at by means of which the supporters of the government and the members of the opposition might sit on opposite sides of the House. Mr. Gladstone added that he had no power in the matter.

William Hunter then asked if Mr. Gladstone had taken into consideration the injury done the honor and dignity of the House, and if the assaults committed by members on Thursday evening were to be allowed to pass without punishment being inflicted upon the offenders. He also inquired what action would be taken if he moved the appointment of a committee to inquire into and report on the matter. Mr. Gladstone replied that he would probably answer these questions to-mor-

Mr. Henry Labouchere, the well-known Radical member, referred to a statement made in the Pall Mail Gazette by Wilnam Fisher, with reference to his assault upon John William Logan. He suggested that Mr. Logan be permitted to reply to Mr. Fisher's statement.

Speaker Peel said he thought it would conduce to a peaceful solution of the matter if both Mr. Fisher and Mr. Lozan addressed the House. Mr. Fisher, amid cries of "Logan," "Logan," arose and expressed deep regret for the part he had taken in the affray. thought, he said, that Mr. Logan intended to assault him or Mr. Carson and it was for this reason that he mixed up in the trouble. He was greatly distressed at having created disorder in the House.

Mr. Logan then emphatically denied that be had intended to assault any one and said he deeply regretted he had been concerned in the affair.

Mr. Gladstone said the explanations were satisfactory to him and he hoped that the matter would be allowed to drop. The Right Hon. A. J. Balfour, leader of the opposition, and Mr. Justin McCarthy, leader of the anti-Parnellite section of the Irish Parliamentary party, also expressed them-selves as satisfied. Mr. McCarthy, however, protested against the idea that the row was due to the Irish members.

UNEASINESS AT BANGKOK. Thirteen French Gunboats Now in Siamese

Waters-A Neutral Zone. LONDON, July 31.-A dispatch from Bangkok, dated Monday, 7 P. M., says: "The uneasiness among the people here, far from lessening, is increasing. Seven more French gunboats have arrived at Koh-Si-Chang, making a total of thirteen now there. Negotiations are still going on, but the progress made is not reported. The intentions of the French are swarted with fear and apprehension. Rear Admiral Humann, commanding the French squadron, has issued a second blockade notice, to take effect three days from Saturday. He will order the British war ships Pallas and Swift, now lying off Bangkok, to go outside the blockade limits. M. Pavie, the French Minister resident, has gone to Saigon, and Rear Admiral Humann is under direct orders from Paris. Unless the French government interposes quickly an attack on Bangkok seems certain. The trading community is suprised that Humann is still allowed a free hand. The Standard to-day received the following dispatch from its Paris corremade to M. Develle, the Foreign Minister, by Lord Dufferin, the British embassador to France, the question of a neutral zone between the French possessions in the Siamese peninsula and British Burmah and the Shanetates, has been settled satisfactorily. It has been agreed that the French blockade of the Siamese coast shall be raired immediately." No confirmation of the foregoing had been received up to a late hour to-night.

Slam Must Keep Her Promises. Paris, July 81.—The ambiguous tone of yesterday's Cabinet council, in accepting Siam's surrender, has excited much comment. It is generally understood that the tone was adopted for the purpose of sooth ing international susceptibilities. It is stated, on high authority, that France intends to take decisive steps to manre Siam's carrying out the terms of the ultimatum. The blockade of the Siamese coast will be continued, it is said, until France's demands are satisfied. The French force now present at Siamese waters is believed to be sufficient to make the blockade effective.

THE BEHRING SEA DECISION. It May Condemn Pelagio Sealing, but Will

Not Grant Uncle Sam All He Claims, NEW YORK, July 31.-The World's Paris cable says: "Since the closing of the arguments in the Behring sea case the arbitrators have been sitting as regularly as before at the foreign ministry, endeavoring to agree upon a decision. While it is impossible to tell when they will announce their decision, a general idea of what that decision will be may be given with reasonable assurance of its accuracy.

"The arbitrators will decide that pelagio sealing should be restricted so as to prevent the extinction of the fur seal species. But they will not give to Americans the full property rights in the herd which they claim. The question of damages is understood to be the one which is chiefly prolonging the labors of the arbitrators. Speculation as to the time of announcing the decision, based on the fact that Senator Morgan had announced his departure for Aug. 5, are not trustworthy, as he has changed his date to Aug. 19, and says he is not sure he can get away then.'

Persons Who Unlawfally Enter the Cherokee Strip Photographed by Col. Wyckoff.

Special to the Indianapolis Journal. TOPEKA, Kan., July 31 .- The leaders of several large colonies now camping along the Oklahoma border in southern Kansas do not propose to be cheated out of the choice homesteads in the Cherokee Strip by "sooners" when that territory is opened for settlement. Col. John Wyckoff, who organized a large colony several months ago in southern Indiana and Illinois, which is now in camp on the line near Caldwell, was here to-day. He says everybody who crosses the Kansas line into the Cherokee Strip is marked, and if "sooners" undertake to take advantage of settlers who have been waiting on the border for months trouble will follow, and evidence will be had that will knock them out in court. As outlined by Colonel Wyckoff, photographing outfits are in the hands of discreet boomers along the southern Kansas line, and every person or wagon that crosses into the Cherokee Strip is photographed. The instrument is concealed in a tent back of an opening in the canvas at every principal crossing of the Kansas State line. Whenever a hay hauler or

Faded, jaded tired, overworked women - weak. nervous, delicate and suffering ones. These are the women who are helped to health and strength by Dr. Pierce's Favorite Prescription. It's a legitimate medi-

and cures; a tonic that invigorates and builds up; a nervine that soothes and strengthens. And if it doesn't do what its makers claim

for it, they don't want your money.

For all the functional derangements, painful disorders, and chronic weaknesses that afflict womankind, the "Prescription" is a safe and certain remedy—a guaranteed one. In "female complaints" of every nature, periodical pains, internal inflammation and ulceration, leucorrhea, and all kindred ailments—if it fails to benefit or cure, you have

your money back.

No other medicine for women is sold on such trying terms. If any could be, you may be sure that it would be. Is something else which pays the dealer better, likely to be "just as good?"
